VetraSpec is your complete, veteran claims management application.

Imagine ...

Generating reports for your entire state with a few mouse clicks.

Sharing all data across all counties.

The ability to see and manage all claims across all counties.

A paperless office.

Accessing your data from any computer with internet access.

Never having to call IT again to fix your claims management system.

It's a reality with **VetraSpec**.

Since **VetraSpec** runs on our servers, it is compatible with *all* operating systems and browsers.

VetraSpec is a **secure**, web-based application hosted on a dedicated server in a datacenter also used by:

- Department of Defense
- Department of Energy
- Department of Agriculture
- E*Trade
- Sprint
- And many others

VetraSpec uses:

- 256-bit AES encryption.
- Secure Sockets Layer (SSL).
- Strong usernames and passwords along with CAPTCHA for login.
- All usernames and passwords are stored in the database as an MD5 hash.

Our host is SAS Type II Certified
